Polar Bear Expedition – Churchill, Canada

November 8–13, 2027 | Round-trip Winnipeg

THE EXPEDITION

Join me, Scott Cadow, founder of Legendary World, on an unforgettable journey to Churchill, Canada, in search of the Arctic's most iconic wildlife. Traveling north from Winnipeg to the edge of Hudson Bay, we'll venture across the tundra in specially designed tundra vehicles to observe polar bears as they gather along the frozen shoreline. We'll experience the thrill of dog sledding, explore Churchill's remote northern landscape, and watch the expansive Arctic sky for the dancing Northern Lights. Together, we'll experience this remarkable wilderness in comfort, adventure, and the spirit of true discovery.

ACCOMMODATIONS IN CHURCHILL

During our stay in Churchill, we'll be based in comfortable local lodges that offer a warm, welcoming retreat after days spent exploring the Arctic tundra. While simple in style, these properties offer cozy rooms, hearty meals, and a relaxed atmosphere that reflects the spirit of this remote northern community. Evenings offer time to unwind, share stories from the day's wildlife encounters, and, if conditions allow, step outside to watch the dark northern sky for a glimpse of the spectacular Northern Lights.

THE POLAR ROVER EXPERIENCE

The expedition centers on the renowned Polar Rover, a specially designed tundra vehicle that serves as our base for viewing wildlife across the Arctic landscape. Elevated above the terrain with heated interiors and outdoor viewing platforms, the Polar Rover allows us to safely observe polar bears and other wildlife in their natural habitat. Throughout the journey, expert naturalist guides share insights into the region's ecology and wildlife behavior, creating an immersive experience that brings Churchill's remarkable tundra environment to life.
